Cracking care in the field...

Benefits

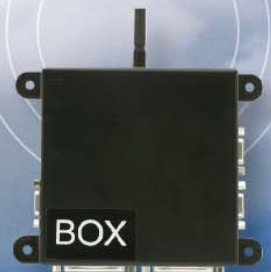

- High quality daily data – full transparency
- Invaluable evidence (LTOA / JMP)
- Peace of mind
- Ability for pro-active handling and quicker decision making saving at least
 - 2 months
- Reduced environmental disruption
- Particularly useful for high level / difficult access / tenant problems
- Remote locations (Northern Ireland / Scotland . . . worldwide platform)
- High net worth / high profile environments

Conclusion

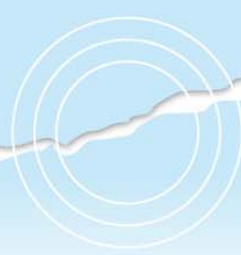

- Customer focused solution . . . Open access to information / data
- Reduction in carbon footprint / 'greener' solution
- Creating Industry change
- Cost effective use of technology
- Platform for the future! (moisture / water / noise)
